

My Workforce Analyzer

Manage your ACA responsibilities.

When the Affordable Care Act (ACA) went into effect, life got more complicated for your company and your HR staff. Which of the new IRS forms will you need to file? What are forms 1094-C and 1095-C? How many full-time employees do you really have? Will you face fines for failing to provide affordable healthcare coverage?

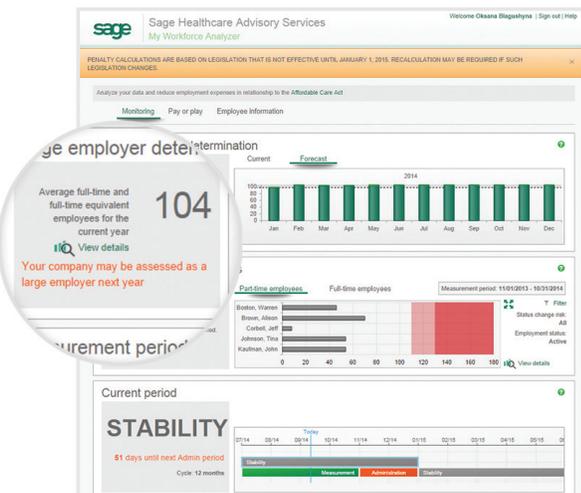

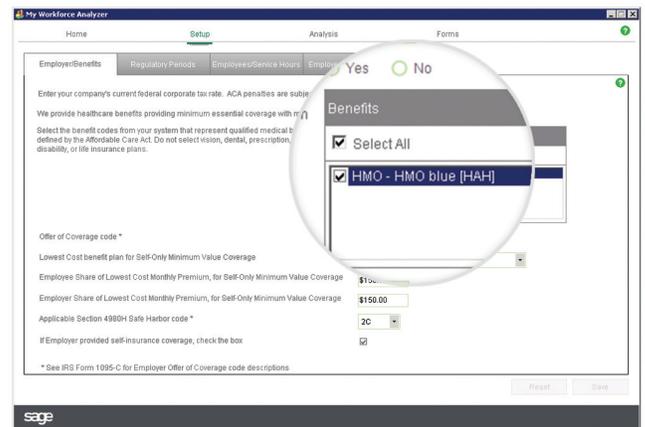

With My Workforce Analyzer, you can conveniently and affordably abide by ACA reporting requirements and make decisions with confidence.

My Workforce Analyzer uses data from your company to address specific questions and concerns, produce online dashboards, generate required forms, and help keep you compliant well ahead of deadlines so you can avoid stress and penalties.

Get started quickly

Although much of the data is imported from your HR or payroll product, simple setup screens make it easy to enter missing information about your company's employees, benefits, and healthcare plans, so you can use My Workforce Analyzer as a system of record for ACA responsibilities moving forward.

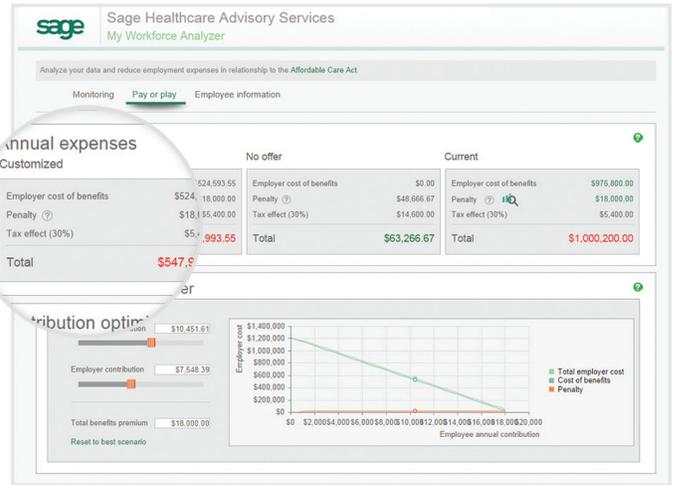

Track the details

Monitor important information such as full-time and full-time equivalent employee counts, your company's status as a large employer for the current and upcoming years, employee hours of service, employees approaching part-time or full-time thresholds, and the countdown to the next administrative period in which changes can be made.

Pay or play

Model different healthcare scenarios to decide whether to pay penalties for noncompliance or provide affordable healthcare. View a summary of your annual expenses, including the cost of benefits, penalties, and taxes. And compare your expenses based on three different scenarios.
