

Simplify payments so you can keep your business running smoothly

Managing company spending is an arduous task and often takes time and resources away from keeping your business running smoothly. With Dash Solutions, manufacturers have finally found a solution that solves all payment challenges. From managing employee pay and company spending to rewarding and recognizing hard work, dash helps deliver value for your organization by empowering employees, improving efficiencies, and positively impacting the bottom line.

SUCCESS STORY:

Puckett Machinery, a Caterpillar heavy equipment dealer, approached us in 2020 to help them solve various payment challenges. They have now implemented 3 of our solutions: dashPay, dashPerDiem and dashReward.

CHALLENGE

- Existing payroll process consisted of paper checks, which proved to be timely, costly and inefficient
- Disbursement of cash for employee expenses was risky and difficult to track
- Existing employee holiday reward program proved to be inefficient with a lack of customer support.

SOLUTION

- **dashPay:** a more efficient way to manage payroll and a fast, flexible, and convenient way for employees to receive wages.
- **dashPerDiem:** disbursing funds to employees for business expenses. Easy-to-use program with comprehensive tracking and reporting built in.
- **dashReward:** a seamless and efficient solution that delivers flexible payouts

OUTCOME

- **Achieved 100% direct deposit**
- Eliminated cash for per diems and gained greater control of company spending
- Seamlessly implemented an employee holiday reward program to keep employees engaged and happy

“Dash Solutions has made it simple and efficient for us to ensure that our employees have fast and flexible access to their payroll, per diem and incentive dollars.”

- Teresa Odom, Director Human Resources, Puckett Machinery Company
